GOALS AND OBJECTIVES
At the conclusion of this activity, participants should be able to:

Approaches to Prevention and Management of Obesity: Past, Present and Future
Application-based | ACPE UAN #0026-0000-15-014-L01-P (disease state mgmt)
□ Identify the benefits of treating overweight and obese patients including the positive impact of weight loss on associated comorbid conditions.
□ Assess patients’ medications to reduce unhealthy weight gain and decrease the incidence of obesity and metabolic side effects.
□ Evaluate the efficacy and safety of past, current and emerging pharmacotherapies for the treatment of obesity.
□ Counsel patients on adverse events they may experience while using pharmacotherapy as an adjunct to their obesity management.

Managing Stable COPD: A 2015 GOLD Update & Therapeutic Considerations
Application-based | ACPE UAN #0026-0000-15-015-L01-P (disease state mgmt)
□ Describe the pathogenesis, associated risk factors, and clinical presentation of COPD.
□ Utilize strategies to monitor the efficacy of a treatment regimen as well as steps to avoid adverse effects.
□ Evaluate the proper use of various inhalation devices to support patient self-management education.

Critical Evaluation and Update of Oral Anticoagulant Therapy: As Simple as ABCDEF
Application-based | ACPE UAN #0026-0000-15-016-L01-P (disease state mgmt)
□ Develop a pharmacotherapy plan to optimize care in patients receiving DOACs for atrial fibrillation and venous thromboembolism.
□ Provide appropriate patient counseling related to DOAC adherence and safe temporary interruption for invasive procedures.
□ Evaluate critical differences between DOACs.
□ Examine the outcome differences in major bleeding between DOACs and warfarin.

The Opioid Crisis: Efforts in Massachusetts to Address a Pressing Public Health Issue
Knowledge-based | ACPE UAN #0026-0000-15-017-L04-P (general pharmacy)
□ Outline the current issues facing the state of Massachusetts in regards to opioid addiction and overdose and how prescription medications have played a significant role.
□ Discuss the implications of Governor Baker’s Opioid Working Group Recommendations.
□ Analyze current models of opioid management used by insurers and the rationale for each.
□ Utilize general principles of appropriate opioid prescribing to identify regimens that may indicate a higher risk for abuse and/or diversion.
□ Summarize next steps and forthcoming initiatives in the state’s response to the opioid crisis.

Legislation & Regulation: The Latest from the MA Board
Knowledge-based | ACPE UAN #0026-0000-15-018-L03-P (pharmacy law)
□ Discuss finalized updates to MA law and regulations providing oversight of sterile and complex non-sterile compounding and their effects on practice.
□ Explain the method of dispensing naloxone rescue kits by standing order and the impact of this process on pharmacy practice to date and going forward.
□ Assess updates to regulations and policies with respect to vaccine administration, controlled substance scheduling, CE requirements for re-licensure, and other compliance issues.
□ Conduct a self-assessment of the practice area using regulatory compliance policies and audit tools.

CONTINUING EDUCATION CREDIT

Accreditation
MCPHS University is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. Participants will receive 6.0 contact hours (0.6 CEUs) including one hour of pharmacy law.

Requirements for Credit
Partial credit will not be awarded. All participants must return a signature sheet at the conclusion of the activity to claim credit, as well as log into the MCPHS website, insert the specific activity code for each session, and complete the evaluation. Evaluations must be completed within 60 days after a live activity. CE credit will be automatically uploaded to CPE Monitor upon completion of the evaluation and posted to the participant’s MCPHS account within 72 hours.

Attendance will be verified. Credit will not be issued to participants who arrive more than 15 minutes late after the start of that particular session or to those who depart early.

Evaluation
All participants will have the opportunity to review the educational sessions and speakers to identify future educational needs.

Statement of Disclosure
MCPHS University adheres to ACPE Standards regarding commercial support of continuing pharmacy education. It is the policy of MCPHS University that the speakers and planning committee disclose real or apparent conflicts of interest relating to the topics of the educational activity, that relevant conflicts of interest are resolved, and also that speakers will disclose any unbeknown/unapproved use of drugs or devices during their presentation. Detailed disclosure will be made in the course materials.

SPEAKERS
Kelly Ann Barnes, JD, RPh | Director, Pharmacy Quality Assurance, Massachusetts Board of Registration in Pharmacy
Snehal Bhatti, PharmD, BCP | Associate Professor of Pharmacy Practice, MCPHS University | Beth Israel Deaconess Medical Center
Timothy R. Hudd, BS, PharmD, AE-C | Associate Professor of Pharmacy Practice, MCPHS University | Primary Care of the Andovers
Kimberly Lenz, PharmD | Assistant Professor in Family Medicine & Community Health, UMass Medical School | Clinical Pharmacy Manager, MassHealth
Dhiren K. Patel, PharmD, CDE, BC-ADM, BCACP | Associate Professor of Pharmacy Practice, MCPHS University | Clinical Pharmacy Specialist, VA Boston Healthcare System

SUPPORT
A complete list of grant support will be available on the day of the activity.

MCPHS University reserves the right to cancel this program due to unforeseen circumstances, in which case a full refund will be given to participants. MCPHS University will not be responsible for travel expenses incurred by the participant in the unlikely event that the program is cancelled.

GOALS AND OBJECTIVES

At the conclusion of this activity, participants should be able to:

Approaches to Prevention and Management of Obesity: Past, Present and Future

Application-based | ACPE UAN #0026-0000-15-014-L01-P (disease state mgmt)
Identify the benefits of treating overweight and obese patients including the positive impact of weight loss on associated comorbid conditions.
Assess patients’ medications to reduce unhealthy weight gain and decrease the incidence of obesity and metabolic side effects.
Evaluate the efficacy and safety of past, current and emerging pharmacotherapies for the treatment of obesity.
Counsel patients on adverse events they may experience while using pharmacotherapy as an adjunct to their obesity management.

Managing Stable COPD: A 2015 GOLD Update & Therapeutic Considerations

Application-based | ACPE UAN #0026-0000-15-015-L01-P (disease state mgmt)
Describe the pathogenesis, associated risk factors, and clinical presentation of COPD.
Utilize strategies to monitor the efficacy of a treatment regimen as well as the reasons of adverse effects.
Evaluate the proper use of various inhalation devices to support patient self-management education.

Critical Evaluation and Update of Oral Anticoagulant Therapy: As Simple as ABCDEF

Application-based | ACPE UAN #0026-0000-15-016-L01-P (disease state mgmt)
Develop a pharmacotherapy plan to optimize care in patients receiving DOACs for atrial fibrillation and venous thromboembolism.
Provide appropriate patient counseling related to DOAC adherence and safe temporary interruption for invasive procedures.
Evaluate critical differences between DOACs.
Examine the outcome differences in major bleeding between DOACs and warfarin.

The Opioid Crisis: Efforts in Massachusetts to Address a Pressing Public Health Issue

Knowledge-based | ACPE UAN #0026-0000-15-017-L04-P (general pharmacy)
Outline the current issues facing the state of Massachusetts in regards to opioid addiction and overdose and how prescription medications have played a significant role.
Discuss the implications of Governor Baker’s Opioid Working Group Recommendations.
Analyze current models of opioid management used by insurers and the rationale for each.
Utilize general principles of appropriate opioid prescribing to identify regimens that may indicate a higher risk for abuse and/or diversion.
Summarize next steps and forthcoming initiatives in the state’s response to the opioid crisis.

Legislation & Regulation: The Latest from the MA Board

Knowledge-based | ACPE UAN #0026-0000-15-018-L03-P (pharmacy law)
Discuss finalized updates to MA law and regulations providing oversight of sterile and complex non-sterile compounding and their effects on practice.
Explain the method of dispensing naloxone rescue kits by standing order and the impact of this process on pharmacy practice to date and going forward.
Assess updates to regulations and policies with respect to vaccine administration, controlled substance scheduling, CE requirements for re-licensure, and other compliance issues.
Conduct a self-assessment of the practice area using regulatory compliance policies and audit tools.
