HONOR ROLL OF DONORS

Contributions to Massachusetts College of Pharmacy and Health Sciences help make our students’ dreams come true. Gifts made to the Annual Fund provide the College with flexible financial funding for a range of important student-focused objectives.

Donors who make restricted gifts direct their generous support for programs and services, ranging from scholarships and faculty development, to building and renovation projects, community service and new academic programs.

In the following pages, we honor our donors for their financial commitment during the past fiscal year ending June 30, 2011 and express our gratitude for their decision to make Massachusetts College of Pharmacy and Health Sciences a charitable giving priority.

PILLAR SOCIETY

The MCHPS Pillar Society calls to mind the six pillars of our mission into its support and appreciation for its impact and excellence. Each of these pillars—Fellowship, Academic Excellence, Research, Clinician-Scientist, Community Engagement, and Global Outreach—serves as a touchstone for our institution, providing a framework for our aspirations and accomplishments. We are grateful to those who have made a significant commitment to these pillars and to the work they represent.

Fellowship

The Fellowship pillar reflects the importance of mentorship and the development of future leaders in the fields of pharmacy and health sciences. It recognizes those who have provided guidance and support to students, faculty, and staff, fostering a culture of learning and growth.

Academic Excellence

The Academic Excellence pillar highlights the commitment to excellence in teaching and research. It acknowledges those who have contributed to the advancement of knowledge and the enhancement of educational opportunities for students and faculty.

Research

The Research pillar underscores the importance of scientific inquiry and innovation. It celebrates those who have dedicated their efforts to the pursuit of knowledge and the development of new discoveries.

Clinician-Scientist

The Clinician-Scientist pillar recognizes those who bridge the gap between research and practice, translating scientific findings into meaningful innovations in patient care.

Community Engagement

The Community Engagement pillar honors the contributions of individuals and organizations who work to improve the health and well-being of communities, fostering a culture of compassion and service.

Global Outreach

The Global Outreach pillar acknowledges the efforts of those who promote international collaboration and the sharing of knowledge, ensuring that our work has a positive impact on people worldwide.

Thank you for your understanding and for your generous support of MCPHS.
It is a rare occasion when an alumnus returns to his alma mater nearly forty years after graduation to celebrate the dedication of a new building in his honor. Richard E. Griffin lived that dream when a new MCPHS academic center in Boston that bears his name was dedicated in 2009. For an alumnus whose career took root in Africa, and later flourished at the top of several national home infusion companies, Richard Griffin’s story of the road to his professional success not only inspires but also demonstrates how, in his words, “anything was possible, if you put your mind to it and worked hard.”

In his many roles as volunteer, employee, entrepreneur, college Trustee and philanthropist, Richard Griffin has benefited from his education and accumulated professional experience to guide his decision-making. He counsels today’s MCPHS students, “to think outside of the box and use their education to propel themselves into new opportunities that help to solve some of the many problems in health care…You have to go after them.” To read about how Richard E. Griffin went after his own fascinating opportunities, visit www.mcphs.edu/report

“Extreme commitment” hardly begins to describe the devotion that Gail Bucher BSP ’63 and her husband Ed deliver as MCPHS supporters. Gail has served on the Board of Trustees for 26 years (the second longest serving member) and as Auditor of the College for 20 years. She served for 24 years on the Alumni Association Board of Directors and acts as informal chaplain at commencements and other events. Ed, an MIT alumnus, and Gail both belong to the College Corporation and are long-standing members of the Chairman’s Club. So what sparked this life long bond with her alma mater? Gail Bucher says that it’s all about supporting the organizations that “are helping to make the world a better place,” with a great deal of pride, as well, in the remarkable transformation and growth of MCPHS.

For Gail and Ed Bucher, the chemistry between themselves and MCPHS has always been just right. To read more about how a young Gail Phillips grew up to become, with her husband, a couple of the College’s most consistently generous philanthropists, visit www.mcphs.edu/report

RICHARD E. GRIFFIN BSP ’71, SCD ’08 (HON.), PHARMD ’10 (HON.) DONOR PROFILES

EDWARD A. AND GAIL P. BUCHER BSP ’63
Steven D. Cohen BSP ’65, MS ’67, DSc, ATSF grew up on Longwood Avenue, or at least pretty close to it. Can you imagine devoting 16 years, from high school through post-doctorate education, within one city block? He spent a significant period of time at Massachusetts College of Pharmacy, first as a student in the BS Pharmacy program and later as a master’s student in pharmacology.

Dr. Cohen worked for the first 28 years of his academic career at the University of Connecticut School of Pharmacy as Assistant Professor of Toxicology and independent researcher. In 2000 he rejoined MCPHS to help build the New School of Pharmacy at Worcester (now Worcester/Manchester), and to lead the Department of Pharmaceutical Sciences. The move worked for both MCPHS and for Dr. Cohen who remarked “President Monahan exemplifies the message I give to our junior faculty about always being on the lookout for opportunities and willing to think big and take big chances.” How did this pharmacy student advance to become department chair at his alma mater over a 40-year academic career? Visit www.mcphs.edu/report

When MCPHS acquired the Crowne Plaza Hotel, located at 10 Lincoln Square in Worcester in June, 2010, the College established a foothold at the gateway to downtown Worcester and secured the future home for a rapidly growing Physician Assistant Studies program as well as new Physical Therapy and Optometry programs. In recognition of the College’s ongoing commitment to the redevelopment and revitalization of downtown Worcester, and to provide financial support for the renovation and construction of an academic and student center, last year more than one dozen Worcester-based foundations committed nearly $2.4 million to MCPHS.

The financial contributions of these foundations have, in fact, catalyzed the remarkable, accelerated transformation of the 10 Lincoln Square property into a state-of-the-art living and learning center. Moreover, their commitment to the transformation of the 10 Lincoln Square property represents the most recent in a succession of contributions and grants that began when MCPHS first established its Worcester campus in 2000.

To read more about the generous, often ongoing commitments of financial support for MCPHS delivered by a group of Worcester’s outstanding philanthropic foundations and trusts, please visit www.mcphs.edu/report
